PROFILE

Creative and detail-oriented UI/UX Designer focused on turning real user needs into intuitive digital experiences for web and mobile. Skilled in research, information architecture, wireframing, prototyping, design systems, and high-fidelity interface design in Figma. Brings a practical balance of user-centered thinking, visual clarity, and front-end awareness.

SELECTED PROJECTS

P

Parking App — Mobile UI/UX

- Designed an end-to-end smart parking experience for discovering nearby spaces, checking availability, booking parking, navigation, payments, and history.
- Created complete user flows, parking details, booking states, saved locations, profile management, and India-focused payment experiences.

CRM

CRM Dashboard — Web UI/UX

- Designed a data-driven CRM dashboard for managing leads, customers, tasks, activities, team performance, and business analytics.
- Created KPI dashboards, charts, tables, lead pipelines, calendars, customer profiles, reports, and responsive management screens.

Global Recipes — Web UI/UX

- Designed a global recipe discovery platform that allows users to explore cuisines by region, browse dishes, view detailed recipes, and save favorites.
- Created map-based discovery, regional cuisine pages, recipe details, personal cookbook features, and structured navigation flows.

GROCERY DELIVERY APP REDESIGN

- Designed a complete grocery shopping experience covering product discovery, categories, product details, cart, checkout, coupons, delivery, and payments.
- Focused on simple navigation, clear product information, fast checkout, recommendations, and a consistent mobile design system.

Logistics Management App — UI/UX & Product Research

- Researched logistics workflows and designed concepts for shipment tracking, predictive ETA, route optimization, dispatch management, and operational visibility.
- Developed information architecture, feature planning, dashboard concepts, and user flows for a modern logistics platform.
